Four new teachers were welcomed to the staff this year.

Miss Persis Battis replaced Miss Helen Watson in grade 1; she received her B.E. Degree in 1955 at Plymouth Teachers' College.

Mrs. Myrle Clark replaced Principal Constance Crosby in grade 5 and has a Life Certificate from Keene Teachers' College.

Mrs. Louise Chamberlain replaced Mrs. Sybill Trachier in grade 6 and is a Maine Certified Teacher.

Mr. Alan S. Cutler, Principal, replaced Mrs. Irene Scribner in grade 8 and has a B.E. Degree from Keene Teachers' College in 1960.

This is an exceedingly high turnover of teacher personnel and not always to the best interest of the pupils and the community, therefore, you are encouraged to retain good teachers whenever possible.

The Barrington pupils continue to enjoy the enrichment program in music, science, mathematics and social studies made available through WWNH, Channel 11, Educational TV.

To become more intimately acquainted with the program offered in your school, you are encouraged to read Principal Cutler's report and to visit the school.

The education of our children and the financial support of our schools is largely the responsibility of the local community, therefore, your school board and superintendent are making every effort to hold the line. However, increased cost of scholar supplies, the demand for higher salaries by teachers, higher tuition rates and increased enrollments makes our position a difficult one.

The following data of Supervisory Union No. 44, which includes your community will be of interest to you:

RAMON MARTINEAU,
Superintendent of Schools.

REPORT OF THE PRINCIPAL

To the Superintendent of Schools:

It was once stated by a Chinese philosopher that if you give him a child until he is six years of age, you may try your best, but you cannot change him. This simply means that lasting impressions and teachings concerning attitude and behavior are instilled in the child's mind even before he enters this new animation known as formal education.

The great American educator, John Dewey, once said that a new-born child is much like a blank tablet on which the experiences of life are written.

From these two great minds comes an overall picture of the infant and adolescent youngster. The parent and the school must work hand in hand for the one common goal, and that is the education of the child.

This year we began our magazine drive in January with the 8th grade class participating. They are the only class needing financial support to defray graduation expenses, class trip, and class gift to the school. Selling is not only a good money-making activity, but is also valuable from the point of view of meeting new people and selling yourself rather than a product.

A regular scheduling of television lectures from the Educational Channel in Durham is being used by the middle four grades in the fields of science and history. This program is being used to supplement the regular lessons, and has been found to be a valuable aid in these two subjects.

A physical education program has been introduced into the school offering basketball for both girls and boys this winter, and will have baseball and golf for the boys and softball for the girls in the spring. The idea of any activity

of this type is not to make great athletes or performers but to create their interest in sports which they can pursue after the years of school are over.

We, here at Barrington School, are attempting to give your child a well rounded portion of their formal education. Some of this is achieved through day by day lessons, while others are taught in units to formulate large, whole ideas which are considered more valuable than minute little known, little valued details. The teachers here do not edify math, or history, or even science; they do not teach subject matter, they teach children, your children.

It has been a pleasure for me to work with the pupils, teachers, superintendent and school board during the year, therefore, I should like at this time to thank all of you for your splendid cooperation.

Respectfully submitted,

ALAN CUTLER,

Principal, Barrington School.

SCHOOL HEALTH REPORT

To the Superintendent of Schools:

The following is the report for the year ending Dec. 31, 1960 for the Schools of Barrington, Epsom, Northwood, Nottingham and Strafford.

There were 856 children inspected during the year for height, weight, teeth, tonsils, and eyes. Of these 96 were done at the Pre-school Clinics in May.

Forty-one cases of dental cavities were reported, 13 of enlarged tonsils and 16 of defective vision. The parents have been most cooperative in having these children checked by their family physicians and dentists and in correcting them according to their advice.

Four children obtained glasses through the State Sight Conservation program and there are 2 children attending Speech Correction Classes at Portsmouth Rehabilitation Center.

During the year 73 home visits were made.

May I extend my appreciation for the fine cooperation of the Superintendent, Board Members, Teachers and Parents who have all helped make the past year pleasant, and, I hope, successful.

Respectfully submitted,

FRANCES L. HARVEY, R. N.

School Nurse.
